Aspiring to Excellence

Target Setting and Measuring Progress in all aspects of the Study Programme

The use of effective target setting to aid learner achievement is key and yet it remains a challenge for many organisations. This practical workshop will explore target setting and how it can be used to challenge learners in all aspects of their programme of study.

This training will ensure participants are able to recognise targets that develop a learners' skills, knowledge and behaviours, at course and pastoral level, as well as 'in lesson'.

Participants will focus on how to enable learners to create individualised and valuable targets that can be used to effectively track their progress.
